### My Macau trip

During the summer holidays, my family and I went to Macau. We stayed at a hotel. The hotel was very small but it offered lunch. I like the hotel. It has air-conditioning and was very comfortable. My family likes it, too. It was an amazing hotel.

Anyone in Macau can go to the temples. They were quiet. There were a lot of interesting things to see. I cannot see the inside of the temple because I did not go inside. I prayed and hope for the best for my family though outside the temple.

We found many interesting things inside a shopping mall in Macau. For example, there were little shops selling souvenirs. There were also shops selling Macau food and snacks. Those snacks tasted wonderfully. There were many food stalls and shops on the streets. There were also many people. The streets and shops were crowded. My family likes the Macau food, example, steamed milk pudding, Portuguese egg tarts and almond cookies. I like to eat them very much. I bought some souvenirs for example bookmarks and some almond cookies and toys for my best friends. It was an awesome experience in Macau.
