

學校積極推動STEM教育，讓學生探索箇中的奧妙，從中培養學生的探究能力、解難能力、計算思維能力，以備將來面對社會的挑戰。

- 建立魚菜共生系統，讓學生負責管理，培養學生的環保意識。
- 在校內安裝了智能電錶，舉辦班制節能比賽，建立動能單車發電系統，讓學生了解節能以及發展清潔能源對保護環境的重要性。
- 獲環境及自然保育基金秘書處資助興建綠色花園，發展有機耕作農圃。
- 參加香港終極飛紙飛機大賽，培養學生的探究及解難能力，並於決賽中勇奪亞軍
- 建立地理資訊室，應用ArcGIS Online 於學與教，發展學生編碼能力。
- 透過機械人及四驅車，讓學生學習利用機械設施及編寫程式以解決生活上的難題。
- 參加中文大學的「機械人、科藝及綠色創意科普計劃」以培養學生將所學應用於環境保護的創意。
- 鼓勵學生參加「青年資訊科技大使獎勵計劃」，培養學生對資訊科技的興趣及資訊素養，讓他們善用資訊科技學習，把資訊科技與學科整合應用。
- 參加大學的科學講座，提升學生對科學的認識及興趣。

The school actively promotes STEM education, allowing students to explore the mystery of science, develop students' ability to explore, solve problems and develop computational thinking skills in order to face the challenges of society in the future.

To raise the awareness of going green, we request our students to manage the "Aquaponics" program.

We have installed the eco-electricity meter, held a class-based energy-saving competition, set up a biking-for-electricity system, just to arouse a sense of environmentally friendliness.

We are also honoured to build our green garden (subsidised by an Environment and Conservation Fund) and an organic farm has taken its form.

Our students shared the joy in "HK Paper Airplane Contest 2017". We came second in the contest.

With the establishment of a Geo-info Room in our school, we incorporate ArcGIS Online into our lessons.

With the Robots and Mini 4WD programme, our students show their interest in writing application programmes and applying them in the real life from time to time.

Our students also participated in the "Mechanical, Arts and Green Creative Science Program" by the Chinese University of Hong Kong to develop ideas to apply their knowledge for environmental protection.

A chance to meet IT face to face via the Youth IT Ambassador Award is highly recommended in our school.

A number of seminars are held by colleges and universities, for nothing but raising the awareness and interest of our next generation to strive for a better understanding of science.

服務學習 愛中成長

Service Learning and Growing in Love

學校推動服務學習，寓學習於服務。學校透過不同的學習活動，提升同學共通能力，發揮潛能，增加自信心。通過活動鼓勵同學關心社區，並為社區作出貢獻。

- 校園小老師計劃：培養本校學生擔當小老師，課餘時在學校設立小學生功輔班，甚至到區內義工服務機構為小學生解決功課問題。
- 暑期學院：學校在暑假期間開設暑期學院，招募學生擔當導師，提供暑期課程予區內小學生，不僅讓學生學習籌辦活動，也讓小學生善用餘暇。
- 為豐富同學的其他學習經歷，拓闊視野，學校本年度更獲得青年事務委員會撥款資助同學，前往江門市崖門鎮進行服務學習活動，通過探訪農村及文化繪牆的義工服務，身體力行地關心國家現況，培養同學共同建設國家的願景。
- 本校師生亦於聖誕及新年等節日舉辦不同社區活動，冀能將本校雷鳴遠神父「全犧牲、真愛人、常喜樂」的精神一直承傳下去。

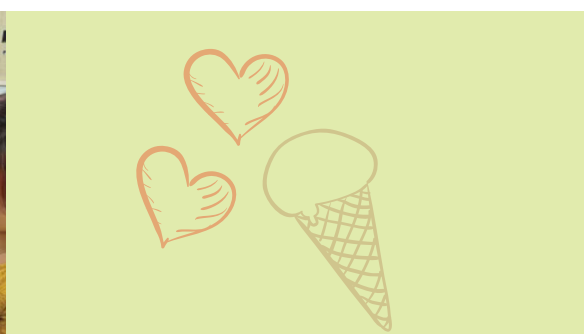

We aim at cultivating in our students an enthusiasm towards community service through a series of activities. The focus is on making a contribution to our society, developing their talents and boosting their confidence.

Under the Small Tutoring Scheme, students are trained to be small teachers who will teach in the classes set up in school after lessons. They even go to the local voluntary service agencies to solve the homework problems faced by the primary school students.

Summer College: The school offers opportunities, under the name “Summer College” during the summer vacation, recruiting students to serve as tutors, and offering summer courses for primary school students in the neighbourhood. This not only provides a chance for students to learn to organize activities, but also for primary school students to make good use of their holidays.

In order to enrich the students’ other learning experiences and broaden their horizons, the school also received funding from the Commission on Youth this year to go to Yamen, Jiangmen City for service learning activities, and to care for the country by visit and voluntary services. The aim is to let them understand more about China and cultivate their sense of building a better country in the future.

Teachers and students of our school have organised a range of activities at Christmas and during the Chinese New Year with a view to presenting the ideas of the school founder, Rev. Vincent Lebbe’s message to the world i.e., Total sacrifice, True Devotion, Constant Happiness”.

放眼四方 實地考察

Broadening Horizons with a Multifaceted Approach

本校近年善用不同的社會資源，如賽馬會全方位學習基金及關愛基金等，籌辦多次境外遊學團，讓學生實踐所學，放眼世界。

- 遊學團活動涵蓋不同形式的學習活動，包括：參觀、交流、考察。
- 參與學生來自不同級別，從而全面照顧各類學生的需要，讓學生認識各地文化經濟發展，培養學生的公民意識及對社會責任感。
- 近年亦成功申請不同計劃，獲得不同的校外團體資助，進行交流考察活動，如：青年事務委員會「海外交流計劃」資助，帶領學生遠赴英國進行深度交流活動。
- 為了配合「一帶一路・尋夢之旅」北京內蒙古考察活動，學校於2017年9月特邀請曾鈺成先生親臨本校主持講座，講題為「我的中國夢」，學生更與曾先生對談交流，獲益匪淺。
- 本校成功獲得由「一帶一路」國際合作香港中心李文俊先生成立之基金撥款資助「印度孟買探索之旅」活動，通過實地考察了解當地華人創業環境及生活狀況。

With resources like Hong Kong Jockey Club Life-wide Learning Fund and the Caring Fund, our school has organised several study tours and excursions for students. Through those outing activities, our students are exposed to different cultures and the economic development of different regions of the world.

The study tours cover different forms of learning activities, including visits, exchanges and field trips.

Participating students come from different levels. This means the school aims to fully take care of the needs of all types of students. This will let them understand the cultural and economic development of each place they visit. Their civic awareness and sense of social responsibility are aroused.

In recent years, we have successfully applied for different projects and received funding from different off-campus groups to conduct exchange visits, such as with the sponsorship of the Commission on Youth for the “Overseas Exchange Program”, which allowed our students to experience the UK with the in-depth exchange activities.

In order to cooperate with the “One Belt, One Road, Dream Search Tour” in Inner Mongolia, our school invited Mr. Zeng Yucheng to give a lecture at school in September 2017, entitled “My Chinese Dream”, and the students who talked with Mr. Zeng benefited a lot.

The school has successfully completed the “Mumbai Discovery Tour of India” with the help of “One Belt, One Road” International Cooperation Hong Kong Centre funded and established by Mr. Li Wenjun. After the trip, the students concerned claimed to have learnt about the local Chinese entrepreneurial environment and the living conditions through field visits.
