Catholic Ming Yuen Secondary School

Innovation • Strive for Excellence 創新 • 追求卓越

25th September, 2020

Dear all Parents of P.6,

Nurturing Students in accordance with their Aptitude

I am sure that finding a suitable secondary school for your child is a big concern for your family in the coming academic year. Besides growing up and acquiring knowledge, secondary schooling plays an important role in shaping a student's personality. If the school can cater for a student's characteristics and learning ability, the student will be nurtured in a fruitful environment and his or her potential will be fully developed.

As a Catholic school, our school sticks to the principle of nurturing students of all abilities. The motto of our school is "a sense of propriety, justice, honesty and honour" and accompanied by the motto of our school founder, Father Vincent Lebbe, "*Total Sacrifice, True Devotion, Constant Happiness*", our students are taught to identify their strengths and talents in the pursuit of their studies and different skills.

Fostering a good character and serving the community is the mission that our students are aiming at. With the concerted effort of our teachers, your children are educated to value themselves, pay filial piety to you and be helpful to the others.

We are committed to taking care of every student while they are growing up. If you wish to learn more about our school, please feel free to phone our school on 27027102 or visit our school website <http://www.mingyuen.edu.hk/>

I look forward to hearing that your child will continue his or her schooling in an ideal secondary school such as ours.

Yours faithfully,

Yuen Yuk Lan

Principal of Catholic Ming Yuen Secondary School
