A brave new world

This week, we asked our readers: If you were a character living in a movie, book, or television show, what genre would you want it to be? Here are our favourite answers

1 A romantic movie. Then I could experience the kind of love that every girl dreams about. In the movie, I'd be an adult woman in a relationship with a man. There might be both joy or hiccups in our relationship. I might break up with him in the end, but that wouldn't matter, because it would be an experience I haven't had before.

A brave new world

This week, we asked our readers: If you were a character living in a movie, book, or television show, what genre would you want it to be? Here are our favourite answers

A comedy. There is no dark side in these TV shows or movies. Everyone wears a smile and is optimistic at all times. In such a world, no one would bully or attack each other. Everyone would be treated nicely.

There would only be laughter. Happiness would spread like Covid-19 and I would live in bliss.
